

# Perception of Error Culture and Management in European Radiology

## Data Information Sheet

**Title of Study:** Perception of Error Culture and Management in European Radiology

**Researchers:**

Dr. Fiona Mankertz, Institute for Diagnostic Radiology and Neuroradiology, University Medicine Greifswald  
Dr. Nadine Bayerl, Institute of Radiology, University Hospital Erlangen, Friedrich-Alexander-Universität (FAU)  
Erlangen-Nürnberg

**Collaborators (alphabetically):**

PD Dr. Saif Afat  
Prof. Dr. Minerva Becker  
Dr. Judith Herrmann  
Dr. Michail Klontzas  
Dr. Isabel Molwitz  
Dr. Robert Rischen  
Dr. Laura Segger  
Prof. Dr. Annemiek Snoeckx  
Dr. Barbara Wichtmann

**Purpose of the Study:** The purpose of this study is to assess the subjective perception of error culture and management at radiological workplaces in Europe.

**Data Collection:** You are invited to complete a questionnaire regarding your general perceptions on error culture and management at your radiology workplace. Your participation is voluntary. You may choose to stop answering the survey at any time.

**Data Confidentiality:**

- All data collected in this study will be treated with the strictest confidentiality by all involved researchers and collaborators.
- Your responses will be anonymized and aggregated for analysis purposes. No personally identifiable information will be disclosed in any publication or report resulting from this study.
- Only the researchers listed above will have access to the raw data. Any data shared with collaborators will be stripped of identifying information.
- Data will be stored securely on password-protected servers and will only be accessible to authorized personnel (i.e. researchers).

**Data Storage and Retention:**

- Data collected in this study will be stored securely for a period of 36 months following the completion of the study.
- After this period, all electronic data will be securely deleted, and any hard copies will be shredded to ensure complete destruction of the data.

**Voluntary Participation:** Your participation in this study is entirely voluntary. You are free to withdraw from the study at any time without penalty or consequence. Your decision to participate or not participate will not affect your professional or personal standing in any way.

**Funding:**

Dr. Fiona Mankertz is supported by the Gerhard Domagk Masterclass Fellowship of the University Medicine Greifswald.

Dr. Nadine Bayerl is supported by the IZKF Laboratory Rotation Program of the medical faculty of the Friedrich-Alexander-Universität Erlangen-Nürnberg.

**Contact Information:** If you have any questions or concerns about this study, please do not hesitate to contact the researchers listed above at:
